- Merov Vaas: Third-party verification of your hash performance
- Serialized hash report: **\$10 per unit**
- Ultrasonic cleaning with verification: **\$70 per unit**
- Contact us for bulk pricing

With Merov Fulfillment Services, managing your warehousing and order fulfillment operations has never been easier. We offer a comprehensive range of services, including Verification as a Service (Vaas) and refurbishing of ASICs in collaboration with Rejuvit Systems.

Our Vaas gives your clients peace of mind with a third-party stamp of approval, ensuring that your hash delivers as promised. Take your service to the next level by opting for ultrasonic cleaning using state-of-the-art solventless equipment. This process revitalizes your units, providing a like-new refurbished product to your end clients. For any units requiring repair, our on-site technicians are ready to assist through our partnership with Rejuvit Systems.
